

COMPLEMENTARY CANCER CARE PRESENTS

MUSIC THERAPY DEMO

WITH FLORIDA MUSIC THERAPY

Cancer Care Centers of Brevard's December Support Group will feature a demonstration by Florida Music Therapy of Melbourne who will be providing ongoing Music Therapy classes (FREE through Complementary Cancer Care) beginning in January!

Music Therapy is the evidence-based, clinical use of music within a therapeutic relationship with a board certified music therapist to increase a person's quality of life.

Music Therapy in cancer care can improve mood, decrease anxiety, improve physical prowess and fine motor skills, support self-expression, enhance communication and process trauma.

No musical experience is necessary. Come join us on the 15th to see what the Music Therapy Program is all about!

FRIDAY, DECEMBER 15TH 1:00 PM

CANCER CARE CENTERS OF BREVARD

1048 Harvin Way, Rockledge 32955
